MOHAMMAD MINHAJ

Full-Stack Developer | Shopify, Next.js, React, Node.js

minhajrafeeq7@gmail.com | +971 50 957 2939 | Dubai, UAE | github.com/Minhajsvn | linkedin.com/in/mohammadminhaj

PROFESSIONAL SUMMARY

Full-Stack Developer with nearly 2 years of production experience building Shopify stores and apps, Next.js and React websites, and Node.js backends. Delivered 20+ client projects for jewellery, gold refinery, precious-metals, real estate and events businesses in the UAE and GCC. Recently built, as sole engineer, a Shopify app that live-prices jewellery catalogs from gold and silver markets. Experienced with real-time WebSockets, Shopify Admin GraphQL, PostgreSQL, serverless backends and bilingual English/Arabic (RTL) interfaces.

SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, React Router, Vite, Redux Toolkit, Tailwind CSS, GSAP, Framer Motion, HTML5, CSS3, Responsive Design, i18next (English/Arabic RTL)

Shopify: Liquid, Online Store 2.0, Theme Development, Embedded Apps (Polaris, App Bridge), Theme App Extensions, Admin GraphQL API, Bulk Operations, Webhooks, Section Rendering API, Metafields, Cart AJAX API, Shopify Markets

Backend: Node.js, Express.js, REST APIs, GraphQL, PostgreSQL, Prisma, MongoDB/Mongoose, Socket.IO/WebSockets, JWT, bcrypt, Cloudflare Workers (D1, R2), Resend

DevOps & Tools: Git/GitHub, AWS Lightsail, nginx, PM2, Vercel, Railway, Cloudflare, Turborepo, npm workspaces, Node test runner, Figma

SEO & Analytics: Metadata, Open Graph, Canonical URLs, JSON-LD, Sitemaps, Puppeteer Prerendering, Google Tag Manager, Google Analytics, Meta Pixel

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Shopify Developer - 3R Creative **May 2025 - Present**

Dubai, UAE (Remote)

- Delivered 20+ production websites, Shopify stores and web apps for UAE and international clients by building with Shopify Liquid, Next.js, React and Node.js, while managing 2-3 client projects at a time.
- Launched Shopify stores for 4 jewellery brands (Blue Diamond Jewellery, Faqeesh Jewelry, Kiora Gold & Diamonds, Dyra Diamonds) by customizing themes, configuring multi-currency markets, payments, shipping and tax, and building mega menus, filters and wishlists.
- Kept Faqeesh Jewelry's bullion and jewellery prices in step with the gold market by building automated variant repricing based on live gold rates, purity and weight.
- Replaced checkout with a pre-filled WhatsApp enquiry flow for Kiora Gold & Diamonds, so customers can enquire about any product in one tap.
- Delivered SEO-ready corporate websites for 5 precious-metals firms (MAC & RO Capital, Promise Gold Refinery, SiraMamba Refinery, Insight Edge Global, Aurify Technology) using React, Next.js, live gold feeds over Socket.IO, TradingView charts and JSON-LD.
- Built the 3R Creative agency website and a multi-brand digital business card app that serves many profiles from one React app through domain-based routing, with vCard export and Web Share.
- Supported team release quality by mentoring junior developers, running code reviews and turning Figma designs into responsive interfaces.

Freelance Frontend Developer - Sulthan Bullion International Jewellery Trading **Nov 2023 - Feb 2024**

- Launched a responsive 5-page business website showing live gold rates in AED and USD by integrating a REST rates API and building in HTML5, CSS3, JavaScript and Bootstrap.

FEATURED PROJECT

Live Rate App - Real-Time Gold & Silver Pricing for Shopify Jewellery Stores (Sole engineer, Sep - Oct 2026; production-ready, piloting)

TypeScript, React Router 7, Polaris, Node.js 22, Shopify Admin GraphQL, Prisma, PostgreSQL, Socket.IO, Liquid, AWS Lightsail, nginx, PM2

- Kept storefront and checkout prices in sync for non-Plus Shopify stores by building an app that prices every product from metal, weight, karat, making charges and stones, then writes prices straight to the catalog.
- Designed a TypeScript monorepo with 4 parts: an embedded admin app, a pure pricing engine with tests, a Socket.IO rate hub serving each store its own live feed, and a theme app extension.
- Prevented bad price changes by building a dry-run-first sync engine using Bulk Operations and productVariantsBulkUpdate (100 variants per call), with throttle-aware retries, holds on moves over 10% and CSV plans for client sign-off.

- Updated visitors' open pages live on any theme by re-rendering only the affected sections through the Section Rendering API, and forced Shopify to re-price open carts.
- Secured and operated it in production with AES-256-GCM token encryption, GDPR webhooks, minute-by-minute email alerts and nightly backups, backed by 13 test files across about 7,200 lines of code.

PROJECTS

Aura - Custom Shopify Theme for a Luxury Jeweller *- Liquid, JavaScript, GSAP, Socket.IO, Shopify CLI*

- Built 15+ editor-configurable sections on Dawn, a multi-step Build Your Ring flow that links setting and diamond as grouped cart items, live bullion pricing, product comparison and a wishlist.

Hi-Life Furniture Rentals - Website & Leads Platform *- Next.js 16, TypeScript, Tailwind CSS, GSAP, Cloudflare Workers, D1, R2, Resend*

- Built a static Next.js marketing site and a serverless leads backend with a staff dashboard tracking each lead from New to Won or Lost, secured with PBKDF2 hashing, signed sessions and rate limiting.

Bijouq Customer Feedback App *- React, Express.js, PostgreSQL, JWT, Turborepo*

- Built a bilingual English/Arabic survey platform for 9 countries with duplicate-preventing phone lookup, a secure admin portal, branch analytics, CSV export and inventory management.

BlackMamba Real Estate *- Next.js, TypeScript, Tailwind CSS*

- Built a Dubai property site with search, filters and sorting, dynamic listing pages with galleries and floor-plan zoom, Google Maps, structured real-estate data and analytics.

3R QR Generator *- Next.js, TypeScript, MongoDB, Recharts*

- Built dynamic QR codes whose destination can change without reprinting, with per-scan analytics by country, device and browser, and PNG/SVG/PDF export.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (Artificial Intelligence) - Yeldo Mar Baselios College, Kochi, Kerala | 2020 - 2023

Crio Fellowship Program in Full Stack Development
